Summer Babe

Pavement

Ice baby
I saw your girlfriend and she was
Eating her fingers, just another meal
But she waits there in the levee wash
Mixin' cocktails with a plastic tipped cigarMy eyes stick to all the shiny robes
She wears on the protein delta strip
In abandoned house but I will wait there
I'll be waitin' foreverWaitin'
Waitin'
Waitin'
Waitin', goMinerals, ice deposits daily, drop off
The first shiny robe
I've got a lot of freinds, I, I want
Not here, babe, you took 'emEvery time, I sit around, I find I'm shot
Every time, I sit around, I find I'm shot
Every time, I sit around
Every time, I sit aroundEvery time, every time
Every time, every time
Every time
You're mySummer babe
Summer babe
Summer babe
Summer babe
