

Hiding Place

Sasha Lazard

Absence, a bad reputation
All locked up inside a sunglass head
Broken, I feel what you've been makin'
 Wakin' up in time to go to bed
 Up then down, lost not found
 Tomorrow's yesterday
 All the way, face to face
 Let me in your hiding place
 Justice, lives inside of laughter
 Stand alone, a circle in a square
 Keep it close, nothin' seems to matter
 Everything is always I don't care
 Let me in, shed your skin
 Four walls a single space
 Mouth to mouth, hand to face
 Let me in your hiding place
Find yourself alone, you're so tiny in a big box
Get it in, get it out, breathe it in, breathe it out
 Let me in, shed your skin
 Four walls a single space
 Mouth to mouth, hand to face
 Let me in your hiding place
