

# Darkside

[Tanya Donelly](#)

From the dark side of the sun  
My supernatural one, you fell into grace  
Move slowly if not carefully  
Then in silence sometimesBlighted and solo  
This is where I come in reeling  
Our future waits on the field of fair play  
I will meet you there somedayYou come on like a sunburn, baby  
My runaway old flame  
I know you come in peace  
But I'm still afraidFrom the dark side of the sun  
My supernatural one, you fell into my grace  
Suffer me if not gladly  
Then in silence sometimesOur future waits on the field of fair play  
I will meet you there somedayYou come on like a sunburn, baby  
My runaway old flame  
I know you come in peace  
But I'm still afraidBlighted and solo  
This is where I come in
