Come With Me

Tonio K.

It's a beautiful prison we're living in
Come take my hand
It's a beautiful castle
We've built on the beautiful sandWith this beautiful ocean before us
And all of these beautiful things
It's almost as if we exist in a beautiful dream
Only I'm not so sure what it's worth
Or what any of it meansCome with me, take my hand
Come let's go
Don't ask where 'cause I don't know
Come let's goNow I don't have a problem with objects
I love the material zone
I love the smell of the forest
The expanse of the desertAnd the way that the heavens were thrown
And the sound and the power of the ocean
And the sparkle of diamonds and goldAnd the mysterious light
In that starry night painting by Vincent Van Gogh
It's just nothing I need to upset myself trying to ownSo come with me
Come let's go, take my hand
Don't ask where 'cause I don't know
Come let's goYeah, I've heard of a country
Where nobody cares what you've got
Where the cut of your clothes
Or the make of your car
Doesn't mean a whole lotWhere acts of compassion
Are valued like pieces of art
And people aren't judged on possessions
But by the intentions of the heartSo come with me
Come on, let's go, take my hand
Don't ask where 'cause I don't know
Let's just goCome on, let's go
Come let's go
