Cabin Fever

Super Furry Animals

Welcome back my friend
Where the hell have you been?
It's nice to feel that smile again
I can see, you can see, wait and seeThe things that were once said
We'll put away to bed
Forget me not and learn I will
It's not so hard to love againThere's nothing we can't do
Time, it passed me bye
When we thought of you
And never more we're evermoreThe snail it moves so slow
As I look down below
And from above I see so clear
This birds eye view that we now fearSome things we can't explain
Can't believe we're there again
Snap out of it my friend
No, no, no, no, no, no, noWe said goodbye today
Don't need you anyway
Praise the Lord, send it on
Pass the ammunitionThe time when you were near
We'd nothing left to fear
But no more than
Just as if no reason why
If we are to changeThat we should still go on
It's nice to know you're here
And we got there in the end
The future now is wide open and clear
