

Oh Teacher

Diana Ross

Every season of my life
People say it, she go far
I exceeded what was needed
Don't you wanna know, what I came here for
Turn the lights way down
I will find you somewhere in the dark
I'm lying with you, you're lying with me
I wanna to show you what I know so far
By doing it right
I'm working on my design
I'm making love with a friend of mine
I won't [Incomprehensible] start
Oh teacher, you get the test of my love
No matter what you learn
Oh teacher, you got the best time, the last time
But this time you're gonna get burned
Oh teacher, you made me study all night
After the end of term
Oh teacher, you've got the first time, the last time
But this time you're gonna get burned
Walk, think, act as the book to you defines
Reach out for the one you love
It may be someone you left behind
You're the reason that I breathe
You're the savior of my nights
I'll never let you out of sight
You're gonna be mine, I've got a wider range
We keep the system but the rules may change
My lips are wetter, I do it better
And if you let me I will help you grow
Baby, don't say no
Oh teacher, you get the test of my love
No matter what you learn
Oh teacher, you've got the best time, the last time
But this time you're gonna get burned
Oh teacher, you made me study all night
After the end of term
Oh teacher, you've got the first time, the last time
But this time you're gonna get burned
Talk, move, smile do it right, we know the way
Watch out for the danger lies
In any game that you wanna play
In any game
Oh teacher, you get the test of my love
No matter what you learn
Oh teacher, you've got the best time, the last time
But this time you're gonna get burned
Oh teacher, you made me study all night
After the end of term
Oh teacher, you've got the first time, the last time
But this time you're gonna get burned
Oh teacher, teacher

Until the end of term
Oh teacher, teacher the first time, the last time
But this time you're gonna get burned
Oh teacher
