

# Entity

## ICO

(Intro)Every three years, an ancient ritual takes place here

Every three years, an ancient ritual takes place here(Madrox)I communicate with the dead through seven LED  
screens

All programmed to channel 13

They conversate and have a laugh and tell a joke or two  
You probably think I'm out my skull but that shit is all true

Me and my brother got a hundred fifty reasons or more

Why they live inside the wall and hide under the floor

They haven't walked into the light or the dark

And even though there's no life in their body

There's a pulse where their heart used to be

That's called kinetic energy

Where there's a will to survive

There is a will to be

An angry entity lives here now

And he's more pissed on how things turned out

He's got a deep rooted anger

That lingers like a foul stench

An eternal thirst that'll never be quenched

So pack your bags if you just moved in

Cause there's no telling the things he's capable of doing(Chorus)There's a dark spirit living in your house with  
you

So here's a quick list of things you gon need to do

**GET THE FUCK OUT!**

Don't grab shit, just hit the door

**GET THE FUCK OUT!**

Don't even mind the blood that's on the floor!

There's a dark spirit living in your house with you

So here's a quick list of things you gon need to do

**GET THE FUCK OUT!**

Now he's gonna try to trick you to stay

**GET THE FUCK OUT!**

Don't look back, just run the fuck away!(Monoxide)I'm sitting watching TV and my lights go out

So now I'm sitting in the dark like

What the fuck's this all about?

And I swear I hear somebody walking in my hallway

So I turn and look and I see something just fade away

I run and grab a radio, push record and play

And I just kept quiet and parlayed

If you got somethin' to say, you gotta say it now

Here's your chance

It started as a whisper and slowly became enhanced

To a blood curdling scream (aaaaaaaaaagh)

He said if I don't go, he'll come and get me

And he'll never let me leave

I'm not a skeptic, the message was intercepted

By my radio, telling me to leave or I'd regret it

I got the fuck out quicker than jailbirds

Who got an early release, a credit

For having some time served

There's a real estate for sale sign on my lawn

And no one even knows that I'm gone(Chorus)There's a dark spirit living in your house with you

So here's a quick list of things you gon need to do

GET THE FUCK OUT!

Don't grab shit, just hit the door

GET THE FUCK OUT!

Don't even mind the blood that's on the floor!

There's a dark spirit living in your house with you

So here's a quick list of things you gon need to do

GET THE FUCK OUT!

Now he's gonna try to trick you to stay

GET THE FUCK OUT!

Don't look back, just run the fuck away!(Shaggy 2 Dope)Seems Madrox tunes into channel thirteen

But I prefer number seventeen, know what I mean?

Probably not, but I can see some poltergeist shit

(They're heeeeeere)

I can't get enough of it!

See, this house is plagued with demons and so forth

They even got statues on the front porch

But I'll fuck around

And just sit there and pet them boys

People seem hokey but I see the real McCoys

Oh boy, when you see a ball rolling down the stairs

Get ready to change the fuck up out them underwear

Cause these spirits, they don't play

These demons and spirits

Spirits and demons are homies

And if you ain't passed or connected to the afterworld

You'll be running out this house like a little girl

So when you hear

(GET THE FUCK OUT)

There'll be a for sale sign, without a doubt(Chorus)There's a dark spirit living in your house with you

So here's a quick list of things you gon need to do

GET THE FUCK OUT!

Don't grab shit, just hit the door

**GET THE FUCK OUT!**

Don't even mind the blood that's on the floor!

There's a dark spirit living in your house with you

So here's a quick list of things you gon need to do

**GET THE FUCK OUT!**

Now he's gonna try to trick you to stay

**GET THE FUCK OUT!**

Don't look back, just run the fuck away!(Outro)(Reversed Talking)
