

# Nobody Wins

Frank Sinatra

Any more it doesn't matter who's right or wrong  
We've been injurin' each other much too long  
And it's too late to try to save what might have been  
It's over, nobody wins  
Make believin' in forever is just a lie  
And it seems a little sadder each time we try  
Cause it's a shame to make the same mistake again and again  
It's over, nobody wins  
We've gone too far, too long, too far apart  
The lovin' was easy, it's the livin' that's hard  
For there's no need to stay to see the way it ends  
It's over, nobody wins  
We've gone too far, too long, too far apart  
The lovin' was easy, it's the livin' that's hard  
For there's no need to stay to see the way that it ends  
It's over, nobody wins, it's over, nobody wins
