

Miss Mystery

Black 'N Blue

Well, the first time that I saw you
You were running with the wrong crowd
With your head up in a dark cloud
You know I had this funny feeling
That you were coming for trouble
But I never knew
So here I go just running after you

Hello (Hello)
Miss Mystery
Here you are
So far from me
Someday, Miss Mystery
You'll spare me of this misery

We had a big misunderstanding
You said the love could die in town
You tell me you can't hang around
And now it's getting too demanding
Yeah, you're bringing me down
You're playing your game
I'm tied to the tracks
'Cause the way you led me astray

Hello (Hello)
Miss Mystery
Here you are, so far from me
Someday, you'll set me free
And spare me of this misery

Hello (Hello)
Miss Mystery
Here I am, what's left of me
Someday, Miss Mystery
You're gonna find out what you meant to me

So I had this funny feeling
I should forget about you
Don't wanna pretend

But here we are, back where we be

Hello (Hello)

Miss Mystery

Here you are, so far from me

Someday, you'll set me free

And spare me of this misery

Hello (Hello)

Miss Mystery

Here I am, what's left of me

Someday, Miss Mystery

You'll spare me of this misery
