

3-Way Phone Call

R. Kelly

Hello
Hey little brother
Hey sis how you doing?
Fine, what's going on with you?
Oh nothing much
Got your message from earlier this afternoon
And something just didn't sound right
And so I'm calling you back to check on you How you holding up?
Oh, everything is fine
You know I don't believe you
Whatcha saying you think I'm lying?
I'm not saying it, but I know you
How you know me?
'Cause you're my brother
And therefore I can tell
When something is troubling you Okay okay, I give you that
Nothing's wrong, I take that back
There is something on my mind
But sis, I don't want to waste your time
But I done told you time and time again
Whatever you're going through
You can come and talk to me
And I will say a prayer with you But I done prayed and prayed night and day
I still can't seem to find my way
Rob that ain't nothing but the devil telling you
That you're washed up and you're through
But sister's here to let you know
Boy you're gonna make it through Sister, do you really believe that I can rise again
Yes, and not only that, Rob
God will forgive you for your sins
Can you tell me what to do?
Well first you gotta believe the truth
Sometimes it's hard to believe in Him
That's okay because He believes in you The winds, the rain, the storm
The weapons that are formed against us
I will survive
The trying times, the sleepless nights
Just know that faith is with us
And I believe yeah

Through all of the hills and valleys roamed
That we must come to
Walk side by side and follow the light
And we'll make it through
We'll make it through, yeah So, so what you're saying is believe a little more?
Yes, cause faith is the key that will opens up the door
What you're saying to me, it's hard to receive
Especially when trouble follows me
When we're keeping it real Robert sometimes
Trouble can follow where you lead Yes sister, I know sometimes, but I
Just wait, let me make a phone call
To who?
A prayer buddy of mine
She can help you tear down your walls
I don't want nobody in my business
She's a friend and besides you need this
You know how church folk can be
Boy I'm your sister, trust in me
Now hold on Maybe she's gone
No
Maybe we ought to just try
Hello
Shh shh, hello, is Kim there?
Yes, I think she's around here somewhere
Hold on
Now you just let me do the talking Hello?
Hey girl, how you doing?
Hey Kelly
My little brother's on the line and needed advice from you
Ooh what can I do for you? Hello?
Go ahead Rob, she's talking to you
Oh, well, I know you must be very busy
So I'm not going to mess around, nah
Just telling my sister how my life is upside down
And I don't know whether I'm going left or right half the time
Sometimes think I'm gonna lose my mind, you feel me? Similar to what I used to go through
Really?
Yes, and sometimes I still do
Yeah?
See it doesn't matter who you are
Or where you're from
If you struggle, God will use you Amen sister, what you're saying is so true
Rob are you there?
Yes, I'm just listening to the both of you
It's so easy to say, but not so easy to do

Yes but if you stand the truth it will free you Oh, just stand strong

Stand strong

With your head held high

With your head held high

Said it won't be long

In time He will provide Will He?

Yes He will

You just stay in the race

Just stay in the race

And keep on running

And down to the end

For your day is coming The winds, the rain, the storm

The weapons that are formed against us

The trying times, the sleepless nights

Just know that faith is with us

Through all of the hills and valleys roamed

That we must come to

Walk side by side follow the light

And we'll make it through I know He'll give you peace

In the midst of your storm

Sometimes I feel like it's too late for me

But He'll never leave you

No way

You just gotta hang on

Hang on Robert say a prayer, keep your head

God will do just what He said

Finally I think I get it

Yes, that's it, that's the spirit The winds, the rain, the storm

The weapons that are formed against us

The trying times, the sleepless nights

Just know that faith is with us

Through all of the hills and valleys roamed

That we must come to

Walk side by side follow the light

And know we'll make it through The winds, the rain, the storm

The weapons that are formed against us

The trying times, the sleepless nights

Just know that faith is with us

Through all of the hills and valleys roamed

That we must come to

Walk side by side follow the light

And know we'll make it through The winds, the rain, the storm

The weapons that are formed against us

The trying times, the sleepless nights

Just know
