

Almost

Tracy Chapman

Almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
And never does
Never does One green light
One more ring of the telephone
One more step
One more second
And I almost
Almost Almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
And never does
Never does One hello
Just one kiss before the tears come
One yes
One chance
And I almost
Almost almost almost Almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
And never does
Never does One day one year
5,000 weeks
A life of good works and good deeds
Let me be let me be closer
Or let me be
Let me be
Let me be When I've almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
And never does
Never does One good guess
A question with an answer that I know
One idea

One grand notion
And I almost
Almost almost almost Almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
And never does
Never does
Never does
Never does
