

Through the Dark

The Mowgli's

We're getting close for all that I know
But I take the most from things that I don't
And whether you're high or low
I'm breathing you in like smoke
Yeah, I know I'm getting close to letting go

Losing sight of who you are
Been growing worlds apart
Losing light then something sparks
We're shining through the dark
Shining through the dark

It's coming to me, I feel everything
Yeah we're not afraid, We'll never be
'Cause whatever hurts the most
I'm breathing it out like smoke
I know I'm getting close to letting go

Losing sight of who you are
Been growing worlds apart
Losing light then something sparks
We're shining through the dark
We're shining through the dark
Shining through the dark

Everybody's gotta burn brighter
Everybody's gotta reach higher
Everybody's got to find their way out

Everybody's gotta burn brighter
Everybody's gotta reach higher
Everybody's got to find their way out

Losing sight of who you are
Been growing worlds apart
Losing light then something sparks

Losing sight of who you are
Never gonna find it living in the dark
Losing light then something sparks

We're shining through the dark
We're shining through the dark
Shining through the dark

Everybodyâ€™s gotta burn brighter
Everybodyâ€™s gotta reach higher
Everybodyâ€™s got to find their way out

Shining through the dark
