## Smashing Pumpkins

Never been kissed by a girl like you  
All I wanna, I wanna do  
Love me baby, love me true, ooh  
Everything I want, I had to have  
And with madness, it's love that's sad  
Trust little baby, oh can't you see?  
Ooh, it's me Ode to the alien weekend  
Wednesday's ring starts to turn slow  
You said show them one weakness  
Then fill that happy heart With a girl like you  
All I wanna, I wanna do  
Love me baby, oh can't you please?  
Ooh, with a girl like you  
Thrown with a girl like you  
Ooh, with a girl like you Times that preach how it's been  
As the straw lives on without  
You're so alone, they'll let you in  
Ooh, if they let you in Ode to the alien weekend  
Stoned where it starts to burn slow  
You said show them one weakness  
Then give my hand a hold With a girl like you  
All I wanna, I wanna do  
To love me baby, oh can't you please?  
Ooh, with a girl like you  
Thrown with a girl like you  
Ooh, with a girl like you  
Thrown with a girl like you You can say, I will listen  
You can swear, don't mind  
You can blot out tradition  
Till I'm bored  
With a girl like you  
With a girl like you, ooh  
With a girl like you, ooh, ooh I'm so alive with a girl like you  
I'm so alive with a girl like you  
Trust little baby, can't you please?  
Thrown a girl like you
