

Make Make

Mike Oldfield

Oh, make make
There's no way out, no way in
To the hallowed halls, the inner ring
You're just a face in the crowd
You got no place when you're down and out
Mona Lisa, you can stop searching
Don't you know we're not virgin
We're on the make make
We only take take
We're on the make make
We accumulate
We're on the make make
Don't mind, it's fake fake
We're on the make make
We're making heartbreak
We're on the make
We build our tower on shifting sand
You got no idea what's changing hands
No chivalry, who cares what you feel?
This is not the place for high ideals
Mona Lisa, you can stop searching
Don't you know we're not virgin?
We're on the make make
We only take take
We're on the make make
We accumulate
We're on the make make
Don't mind, it's fake fake
We're on the make make
We're making heartbreak
Mona Lisa, you can stop searching
Don't you know we're not virgin?
We're on the make
No sympathy, we're sacrosanct
We're on the make
No charity, no thanks
We're on the make
We only take take

We're on the make make
We accumulate
We're on the make make
Don't mind, it's fake fake
We're on the make make
We're making heartbreak
We're on the make
(Make make, take take)
Oh, make make
We're on the make
(Make make, fake fake)
Oh, make make
We're on the make
Oh, make make
We're on the make
Oh, making heartbreak
We're on the make
Oh, make make
We're on the make
Oh, make make
We're on the make
