I Dream In Colours

Samantha Fox

When I dream, I dream in colours, in bright colours, yeah
When I start to dream
When I dream, I dream in colours, in bright colours, yeah
When I start to dreamI will bring you flowers, I will put them in your hair
I will build a mountain for you safe somewhere
I will bring you images of things you've never seen
Walk into the future with me, oh onlyWhen I dream, I dream in colours, in bright colours, yeah
When I start to dream
When I dream, I dream in colours, in bright colours, yeah
When I start to dreamI will take you far beyond the distance of the sun
It will be as if you were the chosen one
I will bring you images of things you've never seen
Walk into the future with me, oh only
