

Tell Me I'm Wrong

[Eskobar](#)

It's not easy being friends, it's even harder being lovers
The flag is waving it's the end, I build a shelter under my covers
Where I sit I think of you my only love Tell me I'm wrong but I feel so free and so small at the same time
Tell me I'm wrong but I feel so free and so small at the same time
And so small at the same time It's not even making sense the ground we walk or sky above us
So how to understand the end, I build a shelter under my covers
Where I sit I think of you my only love Tell me I'm wrong but I feel so free and so small at the same time
Tell me I'm wrong but I feel so free and so small at the same time
Tell me I'm wrong but I feel so free and so small at the same time Where I sit I think of you my only love Tell
me I'm wrong but I feel so free and so small at the same time
Tell me I'm wrong but I feel so free and so small at the same time
Tell me I'm wrong but I feel so free and so small at the same time
And so small at the same time
