Keep On Believing

Grand Prix

I woke up in the quiet dark
Fed the cat and hit the park
Chicest, cutest chocolate queen
Looked and smiled right at meKeep on believing
Keep on believing
Keep on believing
Keep on believingShe said, "Hi" without no sound
Made my head go light and 'round
She was dressed to kill the Pope
And what she did she gave me hope
I smiled back without no sound
I said, "Hi" and left the groundKeep on believing
Keep on believing
Keep on believing
Keep on believingLife won't leave me alone
Trouble won't leave me alone
Strength, don't leave me alone
Truth, don't leave me aloneShe looked so bright in pixie hair
She made me know how much I cared
Brown eyes gave me butterflies
She towed my soul up to the skyKeep on believing
Keep on believing
Keep on believing
Keep on believing
