Frontload (Single Version)

Freezepop

got me feeling incredible
got control over me
you got me feeling insatiable
feel the need to be seen
you got me feeling incredible
got control over me
got me feeling insatiable
I just need to be seen
you got me feeling incredible
got control over me (2x)

take me to your party
take me through the ice and the streets
take me to the awesomeness
and this is the night weâ€™ll be free
take my hand I'll follow
take me anywhere that you please
take me 'till tomorrow
and this is the night we'll be free

something random is happening
I hope that I am prepared
something's suddenly different
there's nothing left to compare
something random is happening
future perfect prepare
something's suddenly different
there's nothing left to compare
something random is happening
I hope that I am prepared
I hope that we are prepared

take me to your party
take me through the ice and the streets
take me to the awesomeness
and this is the night we'll be free
take my hand I'll follow
take me anywhere that you please
take me 'till tomorrow

and this is the night we'll be free
take me to the city
let me hear the crowds and the screams
all the flashes all that noise
and this is the night we'll be free
take me to the cosmos
take me to the place on the screen
dreaming of this moment
and this is the night we'll be free

this is the night we'll be free (5x)
