Jacob's Dream

Day Of Fire

Well, it's time to head out, gotta find my place to rest
Before the sun goes down in the darkness of the west
If I rest my head, would I have to lay upon the stone?
If I rest my head, would I lay to rest alone?
Well, it's time to head out, gotta find my place to rest
Before the sun goes down in the darkness of the west
If I climb those stairs will I find my way back to home?
If I climb those stairs would I find my way alone?
Alone, alone
There must be something real
There must be something more
I'm searching, searching
There must be something real
Searching, searching
If I rest my head, would I have to lay upon the stone?
If I rest my head, would I lay to rest alone?
If I climb those stairs, will I find my way back to home?
If I climb those stairs, would I find my way alone, alone?
