Talk This Way

The Maddigans

I've been thinking about those things
Things you said to me when we were young
You played it cool, I played it dumb
If it meant making things more fun
We were taking life so much betterJust so you knowI hate it when you talk this way
Call me a fool for thinking things would stay the same
Just tell the truth, give me some honesty
Cause if you leave I know I'll never love againJust give me the time of day
Or at least enough to tell you how I'm feeling
I wanna say what I need to say
I'll make it work if you believe in me
Believe in me
