Put a Light On

Generationals

This one wicked road
You're gonna make it right
You found your way to go
You gonna take that right

You're gonna wait too long
You're gonna wait till night
You're gonna wait too long
You're gonna wait till night

Was that the thing you heard?
Was that the thing you said?
I try to find the way
Then maybe walk away!

The miles are way too long
The skies are way too bright
You know them way too long
To run away tonight!

Don't need to fall
The way that you go on tonight
Cause the light on me and my blue skies playing
The light on me and my blue skies playing

The sun will make them dry
The sun will make them dry
The sun will make them dry
The sun will make them dry

This one wicked road
You gonna make it right
You found your way to go
You gonna take that right

You're gonna wait too long
You're gonna wait till night
You're gonna wait too long
You're gonna wait till night
