## A Life Once Lost

What happens, here stays here, right?  
This is nothing but a miserable lesson learned  
What we share together will not end up  
Falling out of someone else's lips I must fight with shadows in my own defense  
And worst of all their names I do not know  
Tell me, do I disgust you?  
I fit their image so perfectly and it is making them sick Is this disgust? Is it disgust or amusement?  
That catches your attention, that draws you near  
Is it disgust or amusement?  
Disgust or amusement, which is it?
