

# I Will Never Die

## Delta Rae

Hickory, oak, pine and weed  
Bury my heart underneath these trees  
And when a southern wind comes to raise my soul  
Spread my spirit like a flock of crowsCause I've loved you for too long  
I've loved you for too long  
I've loved you for too longOld heat of a raging fire  
Come and light my eyes  
Summer's kiss to electric wire  
But I'll never dieSicamore, ash, moss and gnome  
Wrap my roots all around my bones  
And when they come for me  
When they call my name  
Cast my shadow from a bellow's flameCause I've loved you for too long  
I've loved you for too long  
I've loved you for too long(So let the storm come)Old heat of a raging fire  
Come and light my eyes  
Summer's kiss to electric wire  
But I'll never die  
I will never dieYou can bury my body but I'll never dieIn the dead of the night  
(in the dead of the night)  
I'm gonna loose this chain  
(I'm gonna loose this chain)  
I'm gonna run and run and run and run and run  
(Sing on sister)  
I'm gonna run and run and run and run and run  
I'm coming for you again  
(Oh I'm coming for you again)Oh  
So let the storm comeOld heat of a raging fire  
Come and light my eyes  
Summer's kiss to electric wire  
But I'll never die  
I will never die  
You can bury my body but I'll never dieHickory, oak, pine and weed  
Bury my heart underneath these trees
