Try

John Newman

Working so hard, I was alone
So much on my cards, so much going on
And lately I've found I'm headin' astray
And none of your feelings came in to play
I'll make it stronger, stronger
Cause now I can see those fakes that use me
Make you stronger, stronger
Cause I know its you saving meI will try, try, try not to bring it all home
I will fight, fight, fight for what we had before
You don't even want this
You don't even need this
You don't have to cover up your tears at all
I will try, try, try not to bring it all home10 days apart when 3 seems insane
You can't hear my voice you still hear my name
A call from afar, a message to say
I pray you don't leave me, nothings changed
I'll make you stronger, stronger
Cause now I can see those fakes that use me
I'll make us stronger, stronger,
Cause I know its you saving meI will try, try, try not to bring it all home
I will fight, fight, fight for what we had before
You don't even want this
You don't even need this
You don't have to cover up your tears at all
I will try, try, try not to bring it all home
na na na...I'm so sorry darlin
I've been breaking this home for far too long
So I, I..I will try,
I will fight,
You don't even want this
You don't even need this
You don't have to cover up your tears at all
I will try, try, try not to bring it all home.
Try na na na
