Science Fiction

Dropline

I cannot depend on gravity
You are weightless everywhere
So why would it come back to me
To listen to me stareSo what are you afraid of
There's somethin' more
It's leaving you alone
There's somethin' more
There's somethin' more
There's somethin' moreI cannot believe the attitude
That we are simply all alone
So why would it come back to you
To listen to me moanSo what are you afraid of
There's somethin' more
It's leaving you alone
There's somethin' more
There's somethin' more
There's somethin' moreI was bored
I was feelin' uninspired
It caught me
But I am sure
That besides this metal plate
I'm still the same
Same!And I resent the attitude
That we are simply all alone
Why would it come back to you
Listen to me moanSo what are you afraid of
There's somethin' more
It's leaving you alone
There's somethin' more
What are you afraidIt's leaving you alone
It's somethin' more
It's somethin' moreYeah
La da dee di, dee di, dee di (6x)
