Colors (PLS&TY Remix)

Genevieve

Show your colors girl in the morning light
It's on again, it's on again
Recreate the world in your own good vibes
It's on again, it's on againShow your colors girl in the morning light
It's on again, it's on again
Show your colors girl, show show your colors girl
Show your colors girl
Gotta show your colors girlI wake up thinking 'bout my purpose
And wonder if I'm really worth it
It's all been sung before and you've all heard it
(Here we go, go, go)Your life is your design, so go ahead design it.
Your star is in the sky, so go ahead align it.
Cause you're forever lost, until you go and find it.
(Go, go!)
Go find it!Show your colors girl in the morning light
It's on again, it's on again
Recreate the world in your own good vibes
It's on again, it's on again
It's all in your head, in your head, in your head
Show your colors girl, show, show your colors girl
Show your colors girl
Gotta show your colors girlMy life requires certain gears
(Got my heart and my lips)
I'm making faces in the mirror
And when it's hard to let go of my fear
(Here we go, go, go)Your life is your design, so go ahead design it.
Your star is in the sky, so go ahead align it.
Cause you're forever lost, until you go and find it.
(Yeah, yeah go find it)Show your colors girl in the morning light
It's on again, it's on again
Recreate the world in your own good vibes
It's on again, it's on again
It's all in your head, in your head, in your head
Show your colors girl, show, show your colors girl
Show your colors girl, show, show your colors girl
Show your colors girl, show, show your colors girl
Show your colors girl
Gotta show your colors girl(Ready to see the awesomeness?)
Whether you're a girl, a boy, or another

Whether you're a player, a lover, or a hater
Your life is your design, so go ahead design it.
Your star is in the sky, so go ahead align it.
Cause you're forever lost, until you go and find it.
(You know what to do!)
Yeah, yeah, go find itShow your colors girl in the morning light
It's on again, it's on again
Recreate the world in your own good vibes
It's on again, it's on again
It's all in your head, in your head, in your head.
Show your colors girl, show, show your colors girl
Show your colors girl, show, show your colors girl
Show your colors girl, show, show your colors girl
Show your colors girl
Gotta show your colors girlShow your colors girl, show, show your colors girl
Show your colors girl, show, show your colors girl
Show your colors girl, show, show your colors girl
