

L'homme Mauvais

The Great Discord

However it seems, however it goes
Whatever you see I'd like you to know
This was meant for me alone
Regardless of what, whomever or where
I have nothing to atone (for)Smiling, laughing, ecstatic trembling, flies are buzzing,
I'm home at lastThis was meant for me aloneThey found me locked in it's arms
For this you shall burn!
They leave me broken and scarred
My sweet children, what have you done!
Weep all you want, it solves nothingHowever it feels, however it goes
You will always stay below
Regardless of what, whomever or where
This is a struggle that I'll always bear
You will always be aloneScreaming, shoving, sirens screeching
Nightly stalker, l'homme mauvais
You are lost so you will always stay belowI want you to try
You'll be flying high
So you'll fight it
I'll be standing byThey found me locked in it's arms, they'll leave me
Broken and scarred.Dread, red insignia, follow downwards, into despairWeep all you want, it solves nothing
I want you to try
You'll be flying high
So you'll fight it
I'll be standing by
