

# Green Man

Mark Owen

Early morning juices blend he chooses  
Bowl of seed and water cleanses  
Coffeine free with herbs for tea  
Clear and fresh he won't be tempted  
High on C he's staring at me  
We make us seem far apart  
Dead for a while, resurrects with a smile  
Pulls my conscience inside apart  
Green Man  
I'll take a leaf from your book  
Found a new love  
I say peace man  
Green Man  
I'll take a leaf from your book  
Found a new love  
I say peace man  
Second sight no sense of fight  
He lives his life for the moment  
He stands like a god an enlighte'ned god  
Ruby centres his crown  
Man of Wealth loaded with health  
Alien with a mother's heart  
Magic man with your save Earth plan  
Thanks for giving me my part  
Green Man I'll take a leaf from your book  
Found a new love  
I say peace man  
Green Man  
I'll take leaf from your book  
Found a new love  
I say peace man  
Our body is a prcious thing  
Treat it with care  
Treat it with bare  
As a snake sheds its skin  
You've got to shed your past  
Over and over  
Again the more that you give  
The more you'll receive  
So give your love for free  
Don't live for the past or the future  
Live now
