Another Love Song

Uncle Kracker

I hear a lot of records on the radio
A lot of love songs, they make me sing along
I sing straight from my heart right into yours
Complete with cliche and metaphor you heard before
It's ringin' in my head because it rings true
I know you're missin' me like I've been missin' you
And I can never get enough
No, never get enough of a good thing
Does the world really need another love song?
Another you don't know how much I miss you when you're gone
Another I don't know if I can live without you
Another baby you, baby oh, I don't think I'll ever know
I, I, I, I, I love you
Another love song
I, I, I, I, I do
Another love song
Time and time again we need a little break
From the give and take, we make the same mistakes
I know I've never been the one to let my feelings show
And I guess in that regard I'm really not alone
We could all use a push and when it comes to shove
We sing of life and love and a lack thereof
But with a little bit of luck
We could never get enough of a good thing
Does the world really need another love song?
Another you don't know how much I miss you when you're gone
Another I don't know if I can live without you
Another baby you, baby, oh I

Does the world really need another love song?
Another you don't know how much I miss you when you're gone
Another I don't know if I can live without you
Another baby you, baby oh, I don't think we'll ever know
I, I, I, I, I love you
Another love song
I, I, I, I, I do
Another love song
My brown eyed girl, give it away
Just give me some of that Marvin Gaye

Dobie Gray's a good place to start
Go ahead and take a little piece of my heart
So does the world really need another love song?
Another you don't know how much I miss you when you're gone
Another I don't know if I can live without you
Another baby you, baby oh, baby ooh, baby
Does the world really need another love song?
Another you don't know how much I miss you when you're gone
Another I don't know if I can live without you
Another baby you, baby oh, I don't think we'll ever know
I, I, I, I, I love you
Another love song
I, I, I, I, I do
Another love song
I, I, I, I, I love you
Another love song
I, I, I, I, I do
Another love song
