

# Take a Look

[Liz Phair](#)

I don't know what you're after  
Wanna know all the details of my disaster  
Like an accident on the side of the road  
And you're driving past slow but there's nothing to see here  
Wanna take a look, take a look  
Wanna take a look, take a look  
Wanna take a look, take a look  
Wanna take a look, take a look  
I'm some kind of freak now and you'll never see me the same  
What's all the fuss about? Are you sure you wanna find out?  
'Cause once you know the truth you might wish you'd walked away  
Wanna take a look, take a look  
Wanna take a look, take a look  
Wanna take a look, take a look  
What if I'm not able  
To put my cards on the table?  
And would it liberate you  
If you knew what I knew? It's been over a year now  
And I never saw him again  
The facts and the fiction  
Collide as the bodies untangle  
And the traffic moves on like it did  
Wanna take a look, take a look  
Wanna take a look, take a look  
Wanna take a look, take a look  
Wanna take a look, take a look  
Wanna take a look, take a look  
Wanna take a look, take a look  
Wanna take a look, take a look  
Wanna take a look, take a look
