

# Stars And Sons

## Broken Social Scene

Then when you let it  
You asked for nothing  
Why don't you share it  
All of the time you live  
There's something out there Just wanna know, how far to live on  
there's one more avenue in this town  
And in the red room  
At a distance How would you know it  
You're the same when you're living  
I don't know it  
It won't be this Just wanna know, how far to live on  
Just wanna know, how far to live on All of the time you wait, there's someone out there  
And no one can find all the red How would you show it  
You can see through the red  
I don't know it  
It won't be this time
