

Voyeur

Venom

Virgin little schoolgirls, dirty little nurse
Teachers, whores and chambermaids
All lifting up their skirts
Sister's in the bathroom, getting nice and clean
Telescopic vision, he's bursting at the seams
Poison pleasures, taken by hand
Rapid fire from his pulsating gland
Neighbors at the window
Trying her new bra
Young and horny lovers
Back seat, daddy's car
Searching through his bondage
Cindy's in top drawer
Blonde's, brunettes and redheads
To satisfy the voyeur
Uncut videos, vibrating eye
Snakes alive
'Cause he's never shy
He's the voyeur
Leggy traffic wardens, women of the law
Coming hard on oral, she's begging him for more
Polaroid mistress, versatile and lean
Fingering her naked flesh, fuel for his wet dreams
He's had them all, that's what he says
The liar, so little action, but nobody cares
About the voyeur, you meet some
Strange people in this place
Voyeur
