Bang

Nikki Yanofsky

Lookin' out the window through the frame frame frame
All these passer byers look the same same same to him
Paying close attention can't let m' get away way way
He don't need a picture just a nameHe's the one they always call
And the one I'm falling for
Such a dangerous love
cause there's one thing, one thing that he's known forBang Bang Bang Bang
My babe ll' get ya
Bang Bang Bang Bang
he'll send you to your
grave grave grave grave
There's nothing that can
Save save save
Save your soul!most wild forces cant be tamed tamed tamed
Better duck your head down as he aims aims aims for it
Killing for a living such a crying shame
But he'll be such a good dog when he's chained chained chainedSuch a dangerous love
cause there's one thing, one thing that he's good forBang Bang Bang Bang
My babe ll' get ya
Bang Bang Bang Bang
he'll send you to your
grave grave grave grave
There's nothing that can
Save save save
Save your soul!
