

Turn It Up

The Foundations

Whoop, whoop, whoop
Back
Not a single bit
Not a bit
Taste it
Face it, yeah
Face it, yeah, yeahIf you really got it
You ride it and go
Whoop, whoop
If you grindin'
Hustle and bustle and go
Whoop, whoop
Yeah, I'm fully loaded
Pockets low, baby
Whoop, whoop
I'm comin' straight
from the cold, baby
Whoop, whoopIf you really bought it
You ride it and go
Whoop, whoop
If you tryin' to hustle
and bustle and go
Whoop, whoop
I'm fully loaded,
Pockets low, baby
Whoop, whoop
I'm comin' straight
from the cold, baby
Whoop, whoopI know you feelin' us
That's why they trippin' us
And I ain't stoppin' sellin'
'til I reach a billion
And I'm just buildin' up
risin' like helium
Go ahead and try to make moves
We gonna pop your balloons
So we can air it out
Breez em' and clear it out
I ain't saying nothin', man

I figured it out
You just flippin' your mouth
Trying to fit in this crowd
While you sippin' like a fool
I'ma give you the brew
Mix the liquor with the juice
Let it do what it do
Give me a minute in the booth
I'ma give you the truth
You try to spread lies
And I wash 'em aside
And I'm working on my grind
Gonna show you how to ride If it bangs
Uh huh
Then do your thang
Uh huh
And if it's hot
Uh huh
Then let it drop
Uh huh
And if it grooves
Uh huh
Then turn it up
Turn it up
Now turn it up
Turn it up
Turn it up Better recognize me
Not in size
In fact I'm bigger
You's the loser,
a soft like flaky center
No pretention in case
I'm a loose killer
Mockingbird, the same rod slays women
You ain't heard, The whole team
stays with it
A few ticks of my wrist watch
Y'all fly
Flip the flow,
now I'm flippin' on Flow
Y'all can't stop me
Oh no
I'm flawless
Mhedikc's my name
and, yes, I am gorgeous

Woman: Did he just say that?

Yeah, I did say it

Woman: Okay.

Kind of conceited

but I do what you see it

The boys, these fly guys

good fellas, wise guys

I'm about minds

It's about time

I been in the cut

Livin' off iodine

Both eyes wide shut

I think I said enough

I'm the 1, 2, 3

and the 4, 5 If you really got it

You ride it and go

Whoop, whoop

If you grindin'

Hustle and bustle and go

Whoop, whoop

I'm fully loaded

Pockets low, baby

Whoop, whoop

I'm comin' straight

from the cold, baby

Whoop, whoop

If it bangs

Uh huh

Then do your thang

Uh huh

And if it's hot

Uh huh

Then let it drop

Uh huh

And if it bumps

Uh huh

Then turn it up

Turn it up

Now turn it up

Turn it up

Turn it up My brothers to the left of me

my sisters to the right of me

My fam' right in back of me

My future right in front of me

Lincoln be the name

Ain't nobody ever touchin' me
Foundation is the set
And we'll see you at the top, B
Don't try and copy
Just stay calm
The L got the block
sayin' ring the alarm
The L got charm,
the L got smarts
Take your young reps,
goin' straight to the charts
Looky here, lil youngin'
Ain't a second to waste
I'm makin' history
With a little smirk on my face
I'm a professional, a general
a vet to this industry
So I'd like a little motivation
when you witness me
One of the greatest, B
And I know we soon to be
Higher than the Roc-a-fella
dynasty can ever be
And to the top left
You know I got the "F" on my chest
Another soldier just demanding respect Well, if it bangs
Uh huh
Then do your thang
Uh huh
And if it's hot
Uh huh
Then let it drop
Uh huh
And if it bumps
Then turn it up
Turn it up
Turn it up
Turn it up
Turn it up
Whoop, whoop
Whoop, whoop
Whoop
Whoop
