

This Summer (JBAG Remix)

Rufus

We all made plans
We all made plans to go out this summerLost in brightness
Feeling, I want this
To last a lifetime
On and on and on and onSkies surround us
You wanted to notice
The light around us
Is gone is gone is gone is goneLost in brightness
Skies surround us
Lost in brightness
Feeling, I want thisWe all made plans to go out
We all made plans to go out this summer, to go out this summer
We all made plans to go out at night
We all made plans to go out this summer, to go out this summerFly right through me
The wind knows the reason to breathe into me
Tonight, tonight, tonight, tonightLost in brightness
I want this feelingWe all made plans to go out
We all made plans to go out this summer, to go out this summer
We all made plans to go out at night
We all made plans to go out this summer, to go out this summer
