

Love Lovely Love

Jefferson Starship

Love, lovely love
You got a way that's so exciting
I don't mind the pain
Of that burning flame You know it's true
I've got the feelin' too
Hey, why don't you take
Whatever you want from me? I'm in the mood
For all the lovin' that I can't see
Is this for real now?
Oh, I ask you now, can it be? Love, lovely love
You movin' sweet inside of someone
Comes a thunder rain
And a hurricane It's coming through
Straight from me to you
Why don't you take
Whatever you want from me? I'm in the mood
For all the lovin' that I can't see
Is this for real now?
Oh, I ask you now, can it be? Love, lovely love
You do a dance that's so inviting
I don't know the way
Or the words to say But I know it's you
I've got the feelin' too
Why don't you take
Whatever you want from me I'm in the mood
For all the lovin' that I can't see
Is this for real now?
Oh, I ask you now, can it be? Love, lovely love, love, lovely love
Love, lovely love, love, lovely love
Love, lovely love, love, lovely love
Love, lovely love, love, lovely love Love, lovely love, love, lovely love
Love, lovely love, love, lovely love
Love, lovely love, love, lovely love You got a way that's so exciting
I don't mind the pain
Or that burning flame
But I know it's true
I get the feelin' too Now, why don't you take
Whatever you want from me?
I'm in the mood

For all the lovin' that I can't see Is this for real?
Oh, I ask you now, can it be?
Oh, why don't you take it?
Whatever you want from me I'm in the mood
For all the lovin' that I can't see
Is this for real?
Oh, I ask you now, can it be? Oh, why don't you take it?
Whatever you want from me
I'm in the mood
For all the lovin' that I can't see Is this for real?
