

Change It Up

Rollins Band

You say your job is a pain
It's pulling you down the drain
I think you'd rather complain
Than quit itHe knocks you to the floor
But you go back for more when you could walk out the door
He's a loser honey, leave himWin lose or draw
I want it all
Life's so short
No safety netYou get what you get
What you settle forYou say your town is too small, you live your life at the mall
You can't have it all until you leave it behind you
And you wait for the day when luck will come home to stay
You never get your way
You go out --you make itWin lose or draw
I want it all
Life's so short
No safety netYou get what you get
What you settle forDon't justify your complacency to me
That's not an adventure, that's a job
You say you lack what it takes
You say your face lacks a face
There's a fact you gotta face
They broke the mold when they made yaLiving under a cloud
Living quiet or loud
Another face in the crowd
Or one in ten millionWin lose or draw
I want it all
Life's so short
Win lose or draw
I want it all
Life's so short, life's so short, life's so short, life's to short man
