Lions

Leon Bridges

Hungry is my state of mind
Bad love left me high and dry
World is getting hotter
Lead me to the water
You know I need someAh ah would you kill for your own that's how I feel in my bones
Aye la la lions going rah rah
And you pray you're not prey
Everyday, everyday yeah
I can't see the world that you want me to see
I won't be the man that you want me to be
Darkness creeping late at night
Knows just how to talk to me when I'm tired
Feeding on my weakness
Planted in the season when I was so young
Would you kill for your own that's how I feel in my bones
Aye la la lions going rah rah
And you pray you're not prey
Everyday, everyday yeah
I can't see the world that you want me to see
I won't be the man that you want me to be
I won't let the devil get overBut when the water's boiled up and the pot starts to burn
You start to understand the man
Oooh, yeah
