The Healing

Bloc Party

Calm down, let the world spin round
There aint no other place to be
Take this lifeline
Skin tears
But the flesh will weave
Back together again
Only scars nowGo easy, just be
As life gets longer
Got all the time you need
Stay with me my dear
As life gets harder
Whatever strikes, youll heal
You will healBreathe out, let it come around
Let your colours return
Turn a corner
Every time he barks
Just shut the devil out
Let these arms embrace
You know Im downGo easy, just be
As life gets longer
Got all the time you need
Stay with me my dear
As life gets harder
Whatever strikes, youll heal
You will heal
