Feel The Love

5ive

And I can't control
Sometimes I get to thinking
Thoughts on my mind
When I know what I'm believing
They're playing on my soul
And it keeps me strong
We've got it going on
People of the world
[BRIDGE]And I said hey, what are you thinking
And I said hey, we got to get together
[CHORUS]Feel the love now
I wanna sing it out louder
Wanna scream and shout it
We got to get together
I wanna sing it out louder
Feel the love now
Wanna scream and shout it

We got to let this love in
Sure there's gonna be some times
You'll get it wrong
You gotta move along
Don't let it get you down
And when you let the light of hope
Free your mind
All around the world
The sun is gonna shine
[BRIDGE][CHORUS][M8]-(oohs to chorus melody-gospel style)
Come on and put your hands up
Never gonna give up
Stand up
We got to get together
Feel the love now [x2]
[CHORUS
