August Moon

Dylan In the Movies

On a night like this
i will hold you in my arms
If you should feel the pause
Baby hold on, baby hold on

On a night like this
I will keep you by my side
Try to catch a breath
And baby donâ€™t cry, baby donâ€™t cry
This is the fall the burns the live
Between you and me
This is the moon of the august night
Fall into the sea
Drive to the ocean, drive for me

On a night like this
Thereâ€™s no one else around
you should feel the shake
Baby calm down, baby calm down
This is the fall the burns the live
between you and me
This is the moon of the august night
Fall into the sea
Drive to the ocean drive from here
Drive to the ocean, drive from here.
