

# Done.

## The Band Perry

You've been wearing that crown and tearing me down  
It's been a while since you've treated me right  
You strung me along for far to long 'cause I never gave up the fight, until now  
It's gonna hit you hard til you see stars  
It's gonna put through you a world of hurt  
Oh I don't believe in getting even but giving what you deserve  
Oh my, oh my  
Mama always told me that I should play nice  
She didn't know you when she gave me that advice  
I'm through, with you  
You're one bridge I'd like to burn  
Bottle up the ashes, smash the urn  
I'm through with you, la ti da  
I don't wanna be your just for fun  
Don't wanna be under your thumb  
All I wanna be is done, done  
You crossed the line too many times,  
I'm gonna put you in your place  
You play with dynamite don't be surprised when I blow up in your face  
Oh my, oh my  
Mama always told me that I should play nice  
She didn't know you when she gave me that advice  
I'm through, with you  
You're one bridge I'd like to burn  
Bottle up the ashes, smash the urn  
I'm through with you, la ti da  
I don't wanna be part of your fun  
Don't wanna be under your thumb  
All I wanna be is done  
(Done) with your selfish ways  
And all the games you play  
I'm through with you and everything you say  
Mama told me that I should play nice  
She didn't know you when she gave that advice  
Mama always told me that I should play nice  
But she didn't know you when she gave that advice  
I'm through, with you  
You're one bridge I'd like to burn  
Scatter the ashes, smash the urn  
I'm through with you, la ti da (la ti da)  
I don't wanna be your just for fun,  
Don't wanna be under your thumb  
All I wanna be is done  
All I wanna be is done  
Hey ooh, I wanna be done (so done)  
So done (so done) so done
