Falling Sun

Anouk

Relationship, lost on a stormy sea
I hold on to you, just hold on to me
When the lighting strikes and you
Hear the thunder roaring and you
Don't know how long this will go onBut I know I still love you
And I know you still care
So keep on tryin' when
You're sure you still love meI don't know much
But I know how to love you
Doesn't that mean anything?
I don't know much
But I know how to love youA sea of love, don't let it drown us
We're way too far from shore as we go deeper
As the wind grows stronger it tries to tip us over
But we both learned how to swim, so let's just go on'Cause I know I still love you
And I know you still care
So keep on tryin' when
You're sure you still love meI don't know much
But I know how to love you
Doesn't that mean anything?
I don't know much
But I know how to love youYeah, I know I still love you
And I know you still careI don't know much
But I know how to love you, yeah
Doesn't that mean anything?
I don't know much
But I know how to love youAnd it's all I need to know
Yeah, that's all I need to know, babe
Ooh, that's all I need to know
Yeah, that's all I need to know for now
