

# Good Luck

## Marques Houston

Yeah  
Sick and tired of the same ol' thing  
Seein' the same ol' faces  
Check it out girl I'm sucker for you  
My homiest always tell me I'm a fool  
'Cause now I don't do the things that I use too  
Now I see the block is not the place for me  
Life is more than dice, games, and Hennessy That night my partner got shot  
I was home with you  
So if it wasn't for you girl  
They would've got me too Girl I swear you're my good luck that just won't go away  
You mean so much to me  
Girl I swear you're the realiest homier that I ever had  
You mean so much to me Girl you opened my eyes but now I see  
Nothing but haters and snakes surroundin' me  
I was lettin' the hood take me under until I found you  
Now you occupy all my time  
With all the sweet things you do Girl I swear you're my good luck that just won't go away  
You mean so much to me  
Girl I swear you're the realiest homier that I ever had  
You mean so much to me You're my favorite girl with you is where I wanna be  
Girl I left these streets alone just to be with you  
Take my hand, so we can fly away to a paradise girl  
Away from the madness, away from the games  
I'm standin' right here thanks for change Girl I swear you're my good luck that just won't go away  
You mean so much to me  
Girl I swear you're the realiest homier that I ever had  
You mean so much to me Girl you mean so much  
Girl I swear  
Girl you mean so much  
You mean so much to me Girl I swear you're my good luck that just won't go away  
You mean so much to me  
Girl I swear you're the realiest homier that I ever had  
You mean so much to me
