River of Time

Ayreon

Is it too late to prevent their fall
Are they ready for the key to it all
The mystery solved, the answer to life
The final solution, a chance to surviveWe can save this ill-fated race
Who are lost in the ocean of space
Show them the way to reverse their decline
Guide them back on the river of timeFollow the wave, speed up the flight
Slow down time, faster than light
Unite the forces, take a giant leap
Bend the stream, dive into the deepWe can save this ill-fated race
Who are lost in the ocean of space
Show them the way to reverse their decline
Guide them back on a river of timeSend back visions of war and decay.
Paradigms of fear in a world of dismay.
Shape the present, alter the past.
Create a new future, one that would lastWe can save this ill-fated race
Who are lost in the ocean of space
Show them the way to reverse their decline
Guide them back on a river of time
