

# Shake Me

## Millencolin

Yeah, ho, yeah ho ho  
I spend all the weekdays hanging out with you  
I guess I haven't got a better thing to do  
You give me nothing though I'm happy all the time  
When the weekend comes you turn me down  
You try to shake me, shake me  
You try to break me, break me  
You try to shake me, shake me  
You try to break me, break me  
Yeah, come on  
Do you remember when we were playing pool  
I was romantic and said you were a fool  
Those are the moments that I really miss  
When I'm cool and you think I try to dis  
You try to shake me, shake me  
You try to break me, break me  
You try to shake me, shake me  
You try to break me, break me  
  
But I, oh I tried to hide my pride inside of me  
But when you came you made me feel real  
You made me feel like I really am  
Goddamn, now I'm loosing you just because I care  
You are my headache, I don't wanna be alone  
But when I'm lonely you make me write another song  
I think of you and all the things we've done  
Who's the loser and who has won?  
You try to shake me, shake me  
You try to break me, break me  
You try to shake me, shake me  
You try to break me, break me  
But I, oh I tried to hide my pride inside of me  
But when you came you made me feel real  
You made me feel like I really am  
Goddamn, now I'm loosing you just because I care  
Yeah, ho, yeah ho ho ho
