

American Lights

Cazadores

I was forever downwards spiraling
I was the first-born child of the hurricane
There's a hole in the sky, a hole in my head
Shadow I fight to free me from it
So many days left wasted
Impossible me, impossible youCaught in a cross-fire falling,
We are wild hearts burning
Me and you, we caught in
American lights, American lightsSee the dream, let me go, live to tell rock-n-roll
Steady as we go, falling like a domino
Take me to the city line
I wanna see you out tonight, is never enough, never enough.
A cold black cloud is coming down, get inside, get inside.
So many days left wasted
Impossible me, impossible you(refrain)
