I Need You

Sonicflood

You know who I am inside
You know when I lie
You can tell when I'm amazed
You can see my faith
You know when I don't believe
You know when I'm free
You can tell when I need love
You know I'm in need
[Chorus]
Love, I need love
You are love
I need You
Love, You are love
I need love
I need You
You know of my deepest fear
You know when I'm scared
You can read my empty page
You can feel my rage
You're aware of when I dream
You see when I bleed
You can tell when I need love
You know I'm in need
[Chorus]
I know we need You, Father
Much more than any other
Your love brings us together
We need You, we need You
[Chorus]
Love, we need love
You are love
We need You
Love, You are love
We need love
We need You I need You
