# Long Way Down

## Jordan Garrison

I wrote a song, but you would never know
You think you've never done wrong
You think you run the whole show
And that's the funny thing, It never fails to make me smile
Think you can run a marathon
you can't go a single mile

Honey I know, that your daughters rich
but theirs just some things that money can't fix
Mirror, Mirror, on the wall
Who's the most oblivious, of them all?

It's a long way down from your throne made of plastic
Don't you feel so fantastic now?
it's a long way down and your pride is gonna get ya
but no one's gonna break your fall
It's a long way down

Let's clear things up
In case you're confused
We aren't the planets, we don't revolve around you
I know it's harsh that's, my mistake
But theirs some things to be done, some things that I've got to say

It's a long way down from your throne made of plastic
Don't you feel so fantastic now?
it's a long way down and your pride is gonna get ya
but no one's gonna break your fall
It's a long way down

And I do believe people change their ways
I fear for you if you stay the same

It's a long way down from your throne made of plastic
Don't you feel so fantastic now?
it's a long way down and your pride is gonna get ya
but no one's gonna break your fall

It's a long way down from your throne made of plastic

Don't you feel so fantastic now?
it's a long way down and your pride is gonna get ya
but no one's gonna break your fall
It's a long way down

(It's a long way down)

(It's a long way down)
