# You're the One

## Julian Lennon

There's been times when I'm shaken
Now I'm stronger, I can't fall
Don't you know, you were my haven?
Through life's mess, I had to crawlWatching you watching me now
You're the one that's made me true
And if you hadn't been my backbone
I would have died in front of youHold on to me
Hold on to meYou're the one who pulled me back again
Showed your love and your strength as a friend
You're the one who pulled me back again
Showed your love and your strength as a friendEverybody come back from the edge
Everybody's lesson shouldn't hurt so bad
Everybody listen, what's been said
If you never learn, you're gonna be misledThank you, love, for your wisdom
Thank you, love, for your time
Just between us, you're my answer
You're the lifeline of my mindHold on to me
Hold on to me
Hold on to me
Hold on to meYou're the one who pulled me back again
Showed your love and your strength as a friend
You're the one who pulled me back again
Showed your love and your strength as a friendEverybody come back from the edge
Everybody's lesson shouldn't hurt so bad
Everybody listen, what's been said
If you never learn, you're gonna be misledYou're the one who pulled me back again
Showed your love and your strength as a friend
You're the one who pulled me back again
Showed your love and your strength as a friendEverybody come back from the edge
Everybody's lesson shouldn't hurt so bad
Everybody listen, what's been said
If you never learn, you're gonna be misled
